Career Experience

Diesse Diagnostica Senese

2021 – attuale

Head of IT, Cybersecurity & Corporate Services

- Serves as primary authority for cybersecurity governance and regulatory compliance, acting as organizational point of contact for NIS2 and ensuring alignment with evolving regulatory frameworks
- Leads internal cyber defense capabilities as head of CSIRT, defining incident response strategies, overseeing major incidents, and driving continuous improvement of security playbooks and procedures
- Oversees Security Operations Center (SOC) activities, ensuring effective threat monitoring, alert management, and coordinated response to critical cybersecurity events
- Provides strategic leadership of IT infrastructure and operations, ensuring high availability, service continuity, and alignment with business performance objectives
- Leads and develops a technical team, fostering accountability, service quality, and operational excellence across IT functions
- Drives digital transformation and IT service optimization initiatives, enhancing efficiency, standardization, and user experience
- Contributes to strategic infrastructure projects, including greenfield developments, by defining technology requirements and enterprise architecture standards
- Holds full accountability for IT and corporate services financial management, including budgeting, cost control, supplier negotiation, and investment prioritization
- Oversees corporate services operations, including facilities and fleet management, ensuring efficiency, governance, and asset lifecycle optimization

Selected Accomplishments:

- Drove the implementation of a CMMS-based facility ticketing system, enabling end-to-end digitalization of maintenance requests, SLA tracking, and **reducing response times by 40%**
- Led campus-wide energy optimization initiatives, achieving **-23.5% electricity and -11.9% gas consumption in 2025 (after -20% / -10% in 2024), generating €200K+ cumulative savings** over two years
- Built and deployed the **NIS2 compliance framework from the ground up**, including SOC activation, internal CSIRT establishment, and full audit readiness with **zero findings**
- Integrated physical security and cybersecurity frameworks, aligning access control, video surveillance, and visitor management systems with **IT policies and NIS2 requirements**
- Lead a cross-functional team of 12 across 5 operational areas, with full ownership of budget and cost governance (**~12% of company revenue**)

PRADA S.p.A
2012 – 2021

Governance IT & Services Manager

2016– 2021

- Defined and enforced global IT standards across infrastructure, applications, and processes, ensuring consistency and scalability across international markets
- Led enterprise-wide ITSM transformation programs, standardizing service delivery models and improving operational performance
- Managed global IT financials and strategic sourcing, optimizing vendor ecosystems, contract negotiations, and cost structures
- Directed international IT support operations, ensuring SLA/KPI performance and effective management of critical incidents across regions

Service Desk Coordinator

2012 – 2016

- Led a team of 7 technicians; managed VIP support and critical incident escalation.
- Monitored SLA/KPI metrics and implemented continuous service improvement initiatives.

Selected Accomplishments:

- Led the **global rollout of ServiceNow** ITSM as Project Manager, standardizing IT service management processes worldwide and **reducing average resolution times by 25%**
- Contributed to the **IT Governance framework**, supporting the definition and enforcement of standardized processes across international operations

Earlier Career

2001 – 2012

Team Leader – T-Systems | IT Consultant – Hotbit Srl | Technical Coordinator – Olisistem ITQ Spa
